

ANOTHER LIE NAILED.
The assertion is being made on the street that there are no Republicans in the News Review office except the proprietors. A poll this afternoon shows that it is a lie out of whole cloth, and every voter in the office is a Republican.

HERE IS A GREAT HOWL

Calvin Ferrall Talks to the Democrats.

GROVER CLEVELAND ARRAIGNED

He Believes That It Is Better to be a Pop Than a Democrat, and Points Out the Weak Spots in the Armor of His Old Time Friends—A Scathing Article.

The following letter fully explains the purpose of the writer, and deserves the attention of the people who have known Calvin Ferrall as a firm Democrat:

FELLOW DEMOCRATS OF COLUMBIANA COUNTY:

Having spent a life time fighting for the triumph of the Democratic party, and now after seeing it triumph, I deem it due to my friends in that party to state the reasons why I can no longer remain in it and give to it my support. My first reason is that I believe that the Populist party more nearly represents original Jeffersonian doctrine than does the present mugwump Democracy. But it ought to be a sufficient answer when that party's head and president, christens the first born of his party on the tariff question a fraud and a perfidy. Well now, in God's name—well, at least, I will say in Grover's name—am I to be called a renegade, from a party whose president declares the acts of his congress fraudulent and perfidious? Has not that party in all national platforms since 1880 solemnly resolved in favor of a tariff for revenue only sufficient to meet the expenses of the government economically administered, and did it not promise to abolish the trusts which it declared were created and fostered by the McKinley bill? Now what says Mr. Aldrich, a Republican senator, of the bill they did pass. He declares it protective in many of the leading schedules of the bill, and that it gives millions to trusts. In fact about the only trust the party did abolish was the one stamped on the silver dollar, which reads, "In God we trust." The Democratic party, after resolving in favor of the free coinage of silver soon busted that trust, and this they did, because in God they do not trust; but in gold they trust, and for gold they lust, and in Grover they will bust.

In '92 when Cleveland was elected president, 34 of the 44 states resolved in favor of the free coinage of silver, and, with few exceptions, the entire Democratic press of the country denounced the act of '73 demonetizing silver, and called it the crime of '73. Almost all who voted for it in congress declared that they did so in ignorance that it contained a section striking down the American dollar.

Every intelligent man knows that this demonetizing act committed in ignorance by the Republicans did more to restore to power the Democratic party than any other single act of the Republican party. As a sample of where the Democratic party stood on this great paramount question—hear John G. Carlisle, Mr. Cleveland's secretary of the treasury. In advocacy of the restoration of silver by the Bland bill of 1875, John G. Carlisle on the 21st day of February, 1878 uttered these burning and eloquent words: "I know that the world's stock of the precious metals is none too large, and I see no reason to apprehend that it will ever become so. Mankind will be fortunate indeed, if the annual production of gold and silver coin shall keep pace with the annual increase of population, commerce and industry. According to my views of the subject, the conspiracy which seems to have been formed here and in Europe, to destroy by legislation and otherwise, from three-sevenths to one-half of the metallic money of the world, is the most gigantic crime of this or any other age."

Now after the democrats had succeeded in repealing the crime of '73 and restoring silver coinage under the Bland bill of 1875, who now are most responsible for committing the crime of '73 over again in '93? The Republicans, who pleaded ignorance for committing this crime in '73, can now plead justification in '93, and hide behind Cleveland and Carlisle. After the Democratic party had pushed tariff reform to the forefront and declared it to be the paramount issue, what did Mr. Cleveland do as his first

official act? He called congress together, and he and Carlisle declared that the paramount question was to commit over again in broad daylight the crime of '73 in '93. Thus we see these American schemers conspiring to commit the most gigantic crime of this or any other age, and according to Carlisle's views to "entail more misery on the American people than all the wars, pestilences and famines that ever occurred in the history of this world."

Great God! Cleveland, what history you and Carlisle are making for future generations. Now, who is it that is murdering (if they have not already murdered) the Democratic party? Can Democrats or Democratic stomachs stand such doses of poison and stultification as you are trying to force down their throats and lives? Great heavens! Cleveland, if your secretary of the treasury told the truth in his able and eloquent appeal to remonetize silver, then one dose of his present remedy for our afflicted country, would certainly blister the lips of the devil.

I believe that I am a Democrat of the Jeffersonian and Jacksonian school, but from the present mugwump and gold bug Democracy, I beg leave to part.

CALVIN FERRALL.

WHERE YOU WILL VOTE.

Do You Want to Know Where You Will Vote?

The polling places tomorrow are as follows:

First ward: First precinct, Elliott's carpenter shop, East End; second, Thompson House; third, Burlingame's Calcutta road.

Second ward: First precinct, city hall; second, Whittenberger block, West Market street.

Third ward: First precinct, Adam Bros., Fourth street; second, Mrs. Turnbull's residence, Fifth street between Jefferson and Monroe.

Fourth ward: First precinct, West's undertaking rooms; second, Collins' building, Lisbon street.

Township, at city hall.

Coxey's Organ Dropped.

Word reached the NEWS REVIEW from Salineville this afternoon that The Populist, Coxey's newspaper, had dropped to Taylor. A copy of the paper, which has been howling for Coxey, has an eagle at the head of the editorial column and under it these significant words, "Vote for R. W. Taylor." The paper stands out for the Populist county ticket, but condemns Coxey in almost every paragraph.

Joked With the Coxey Man.

Deputy Sheriff Moffatt was in the city Saturday evening, and told an amusing incident of how the Coxey men obtain information upon which to base their enormous claims. A representative polled the slope mine near Lisbon, and the men having heard of his coming decided to play with him. When the count was made it was found that out of 48 men all said they would vote for Coxey except two. The Pop. went away feeling good, and so were the men. Instead of 46 votes, Coxey will get two out of the lot.

Bob Taylor Will Win.

Reports from Canton and Youngstown, together with the estimate of this county, shows that Taylor will win with a comfortable majority tomorrow. The Coxey vote in the northern part of the county will not come near the estimate placed upon it by the commonwealer, and Raff has gained nothing since his trip through the county. Let every Republican add his vote to the great plurality.

Making New Citizens.

A number of persons called at city hall today for the purpose of learning at what time Judge Young would be present to issue naturalization papers. At 2 o'clock he had not arrived, and the number of inquirers was becoming larger.

Lifted the Quarantine.

Health Officer King lifted the quarantine on the only diphthiric case in the city today, the Walnut street case. The children in East End who have been suffering from scarlet fever are gradually getting better.

Gone to Kittanning.

John Burns was released from jail on Sunday morning, his fine of \$12 having been paid by the Wick China company, of Kittanning. He left for that place this morning, and will work in the pottery.

Paying Their Fines.

All the gamblers who were arrested in East End have called on the mayor and paid for their fun in that poker game.

TO START TOMORROW

Men Will Work in the East End Pottery.

CLAY IS BEING MADE TODAY

The Plant Will Be Put In Full Operation as Soon as Possible—Will Make a High Grade of White Granite. No Estimate of Men Employed.

Clay is being made at the East End pottery today, and the plant will actually begin operation tomorrow.

Preparations for starting the new factory were made some time ago, but the thousand and one little things which appear made it impossible to begin before tomorrow. Clay has been made there, and specimen pieces of ware have been turned out and found to be satisfactory. Mr. Minehart said that at present there was no definite estimate of the number of men to be employed, but it would be in keeping with a plant of that size. They expect to manufacture a high grade of white granite, and are anxious to get into the market as soon as possible. The capacity of the plant is said to be greater than the average factory with an equal number of kilns as all things have been done to facilitate work, and the company have profited by the experience of others. With the pottery in full operation the income of the city will be increased because of the number of men employed.

"WORTHY OR UNWORTHY."

Don't Ask This Question When a Case of Common Humanity Appeals.

The question comes home to many professing Christians in East Liverpool as well as elsewhere. Not long since there was a case of practical application on this point in this city. The person most interested was absolutely penniless and almost helpless. Professing Christians were about to aid, when one member of the party saw fit to raise the question, "Is the applicant for charity a worthy person or not?" Testimony was adduced pro and con, and finally several persons asserted their belief that the applicant was not worthy and should not be helped. This brought a practical, every-day Christian to the front, who indignantly said: "This is not a case of worth or worthlessness; 'tis a case of common humanity, and my Bible teaches me that, if I would do my simple duty in the premises, I shall aid and comfort the unfortunate one." And she kept her word, and rallied others to her assistance, and the poor sufferer received the very best of care and attention. Applicable are the blessed words, "inasmuch as ye have done it unto one of the least of these my brethren, ye have done it unto me."

CHANGING CITY HALL.

Officials Will Have More Convenient Offices.

Work was started on some important changes in city hall this morning. The floor in the old fire quarters was torn up, and is being replaced with one of the best. A door is being cut from the same quarters into the room now occupied by Clerk Hanley. When the improvement is finished Mayor Gilbert's office will be where the fire department gong held forth so long, a big window will occupy the place of those doors, Clerk Hanley and Chief Gill will change offices, and there will be two vacant rooms on the second floor. These may be occupied by Solicitor Clark and Engineer George. The new arrangement places the mayor's office across the hall from the jail and puts Chief Gill in the next room. It is a method which meets the wants of all the officials.

A Costly Error.

A small boy employed by Howard Kerr was sent on Saturday to the telegraph office with a message for a Chicago man. When he returned it was with a look of astonishment on his face and the words: "Gee whizz! That message cost you something, didn't it?" Somewhat mystified the employer asked how much it had cost, and the answer came \$4.18. Then it was learned that the boy had telephoned instead of telegraphed the man in Chicago. He still holds his position, but with the fear that he must pay the bill.

At the Opera House.

Rev. Lowry, pastor of the Presbyterian church of Wellsville, addressed the audience at the Grand Opera house Sunday afternoon at 2:30 o'clock. Services opened with a selection of song by twelve voices, with piano accompaniment, and several selections were nicely rendered during the afternoon. Rev. Lowry delivered a square, open-faced, honest, temperance address, denouncing the liquor

traffic in no uncertain terms, and asserting that he preached just such sermons to his parishioners in Wellsville and intended to continue so doing. The reverend gentleman firmly believes in all Christian men voting as they pray, asserting that it is their bounden duty to vote against all license laws and do all in their power to wipe out the curse of the liquor traffic in the nation. Services at 2:30 at the opera house next Sunday.

Hurting a Physician.

It is related that a lady on Third street was sick last night, and a relative started to hunt for a physician. A number of calls met with refusals as the doctors did not know whether they would ever be paid. At length one was found who went, and when he heard of the other occurrence he was mad through and through. To a NEWS REVIEW man he said the woman's name was not on the dead beat list, and the call should have been answered as there was no reason to believe that it was not all right.

Spontaneous Combustion.

Smoke was discovered in the basement of the First National bank building yesterday, but fire could not be located. After a long search it was discovered today that several hundred bushels of slack was slowly igniting, and causing the trouble. A hose was turned on the smoldering pile, and kept playing until the slack spark was extinguished. As the slack was piled close to the boilers there is a difference of opinion as to whether spontaneous combustion or heat from the other source was the cause.

Funeral Tomorrow.

The remains of Mrs. Bessie Purinton, wife of William Purinton, who died at Peoria, Ill., last week, arrived on the 1 o'clock train today, and were taken to the Woolscraft residence on the Calcutta road. From there the funeral will take place at 2 o'clock tomorrow afternoon, and the remains will be laid to rest in Spring Grove cemetery. Mr. and Mrs. Purinton formerly resided on Fourth street and the family had many friends who will hear with regret of the untimely demise of the deceased.

A Cheering Scene.

The lights were on last night in force, the only part of the city in darkness being the East End. The machinery is not all here, but the arrangement is being made today whereby the power now harnessed will do some extra work. At the plant it was learned that all the men have been working with a will, and are as proud of the record they have made as any members of the company. The temporary machinery once in place will be continued in service until the plant is again rebuilt.

A Peculiar Case.

Lottie, the 11-year-old daughter of Frank Earle, is lying at the point of death at her home on the Calcutta road. Her case is a rather peculiar one. On Friday she felt ill for the first time, and on Saturday was put to bed. During the afternoon she became delirious and went downstairs. Since midnight Saturday she has lain unconscious, and the attending physician has given her up. Her illness is pronounced typhoid fever and congestion of the brain.

Thrown From a Buggy.

Clyde Palmer, a lad who resides on the Calcutta road, was sitting in a buggy in front of his house yesterday when the horse became frightened, and galloped up the hill. After a wild ride of several minutes the boy was thrown out, and the horse continued its course until it ran into a telephone pole. The violent collision broke a wheel in the buggy, and stopped the animal. Young Palmer was not badly hurt.

Basket Ball.

It is a great game, and as played by the boys of the Young Men's Christian association rivals the fiercest football match ever played. Saturday night the boys were practicing in the gymnasium for the coming fair to be given by the ladies auxiliary. Ed Wyman sustained a broken finger and Sherman Herbert had his glasses shattered. Another game will be played tonight, and all who wish to endanger their lives are invited to attend.

A Welcome Present.

Crook & McGraw made the hearts of the members of the Women's Christian Temperance union happy the other day with the present of a handsome carpet for their new room on Market street. The ladies of the organization return most sincere thanks to the donors.

A Transfer.

Knowles, Taylor & Anderson have sold two lots in the East End to Henry Chambers for \$400.

KICKED AND BRUISED

Thomas Dorsey Was in a Wellsville Fight.

NOW HE IS SPITTING BLOOD

One Eye and His Head Hurt—Many Sore Spots on His Body—The Physician Believes he is Badly Hurt—No One Knows Who Did It.

Thomas Dorsey, a resident of Union and Second streets, is a very sick man and some fears are entertained for his recovery.

Dorsey was in a fight in Wellsville several days ago, and says that two or three men were on him at one time. No particulars of the battle are known, but the man's body is ample evidence that he received rough treatment. He was hit on the head, and the frontal bone injured, but a kick in the abdomen was the most serious hurt, and may result seriously. The man has been vomiting blood, and in other ways shown to the physician that he is not in the most desirable health. His body is covered with bruises, and one eye has been wearing a darkened shade as results of the fight. He does not tell the names of the men, but if he should die from the injuries the guilty persons will likely become known. The man suffers terribly, and at times becomes almost wild with the agony produced by his injuries.

They Were Drunk.

Several drunken people were noticed on the streets today, evidently people who were celebrating the election before it arrived. One man was noticed near the fire station and his wife was tearfully entreating him to go home, but he was obstinate. Another man staggered past the NEWS REVIEW office about 2:30 o'clock supported by a companion, and so drunk that he walked in numerous directions. No arrests were made.

It Didn't Work.

A couple of youngsters on Second street planned what they thought would be a terrible fright for an engineer Saturday night. They placed a dummy on the track with a rope attached, and at the proper time pulled dummy up and down as if he were alive. The engineer didn't even blow his whistle and ran right over the "man" in a cold blooded manner, while young America went away discomfited.

A Junior Entertainment.

The Junior league, of the First Methodist Episcopal church, will give an entertainment in the church this evening. The admission will be free, and a general invitation is given the public to be present. The program contains some of the best known juvenile talent of the city, and the entertainment will be equal to other efforts of the society.

Whipping Their Man.

A motorman on the street railway says that a fierce fight was in progress on Washington street when he passed through on a trip Saturday night. Three or four men were after one fellow, but he was keeping them off as best he could, and endeavoring to get away. No battle of this kind was reported to the police.

Is Johnson Coming?

Employees at the power house are working with vigor today, and the splendidly kept property of the street railway company is being made to shine as if they were new. The general opinion is that Johnson is coming, and Superintendent Andrews wants everything to look well. Others say that it is only the regular fall cleaning.

Friends Remored Him.

Some individual, so filled with whiskey that he could not walk, laid down on Sixth street Saturday night, and attracted the attention of a crowd of small boys. The police were notified, but before an officer could arrive friends had heard of the message which had been sent and the inebriate was removed.

Going to Wed.

NEW LISBON, Nov. 5—Two marriages were made to the list of marriage licenses for the month today. Richard Wilkinson will wed Margaret Smith, and Thomas Leech will marry Emma Patterson.

Hendricks Will Be There.

The board of education will meet tonight, and Mr. Hendricks, the East End man, will be there to say a few words regarding the punishment of his child. An interesting session is anticipated.

EAST LIVERPOOL, O., MONDAY, NOV. 5.

Get Coxy and his circus.
Go to the polls tomorrow and vote
the straight Republican ticket.

VOTE for R. W. Taylor. He is a
Republican and a man who will look
after and support the people.

Let every true Republican be at the
polls and cast his ballot. No lover of
good government and good wages will
fail to vote.

Let no Republican worthy of the
name scratch his ticket tomorrow.
Vote for Bob Taylor, good government
and good wages.

Beware of Democratic canvass.
The party in Ohio is so desperate
that it may spring some silly sensa-
tion at the last minute.

If you place your mark below the
eagle tomorrow you will have voted
for men who will not only perform
the duty demanded by law but will
look after the interests of the peo-
ple.

Coxy and Browne were guilty of
the most awful sacrilege. How can
any clean, self-respecting, honest,
law-abiding and God-fearing man vote
for this scoundrel and disbeliever in
all things good and true?

The man who votes for Coxy to-
morrow votes to give the leader of the
commonwealth a \$5,000 position, and
nothing more. In congress the man
from Massillon will amount to noth-
ing, and he could do nothing with his
nonsensical ideas should he possess
the courage to place them before the
house.

MECHANICS and toilers of East
Liverpool, cast your vote tomorrow
for Republicanism and good wages.
Your last Democratic cut of 121 per
cent. should be a lesson which all can
read and comprehend. If you want
another cut in the near future, vote
the Democratic ticket, and then take
the next cut in wages good naturedly.

BIG BATTLES IN CHINA

Heavy Fighting Just North of Port Arthur.

YAMAGATA'S SUCCESSFUL COUP D'ETAT

He Divides His Forces and They Fight
Their Way to Each Other—An Im-
portant Naval Engagement Reported—Yam-
agata Continues His Victorious March.

YOKOHAMA, Nov. 5.—Advices received
here from the front show that there has
been heavy fighting in the country just
north of Port Arthur. The dispatches
received are brief and are silent on some
important points. It appears that Field
Marshal Oyama divided his forces.
While one division landed on the east
coast of the peninsula north of Talien-
wan, another division was detached,
with orders to effect a landing near Kin
Chow and to proceed thence and join
the main body of the army. This opera-
tion was a complete success. The Japa-
nese encountered no Chinese warships,
and the transports reached Kiyenko and
disembarked troops, guns, horses and
munitions in safety. Kin Chow, which
is a walled town and which was believed
to be held by a large garrison, was im-
mediately attacked. The outer defenses
were carried by the Japanese after a few
hours' fighting. The Chinese made lit-
tle further resistance and the Japanese
were soon masters of the place.
In the meantime the Japanese fleet
which had conveyed the transports
opened a very heavy fire on Talienwan
and Kiyenko (Kiyenko). The firing
scarcely ceased for many hours. Cov-
ered by the fire from the ships land
force attacked and captured Talienwan
in a brilliant fashion. The dispatch
states that the losses were heavy. They
also mention that an important naval
engagement occurred Saturday, but give
no details.

There is great public rejoicing today
over the victories thus far won by the
Japanese armies. Up to the time of
sending this dispatch there has been no
confirmation of the report of the cap-
ture of Port Arthur.

Field Marshal Yamagata's army con-
tinues its victorious march. The divi-
sion under General Tatsumi has pushed
forward and taken possession of Fung-
whang-ching, a fort which was of im-
portance next to Moukden. The
principal portion of the Chinese
army fled toward Moukden and the re-
mainder in the direction of Haichen
and Takusan.

The Chinese inhabitants, who have
been plundered by the Chinese soldiers,
welcomed the Japanese army. The
Japanese captures to the present are 55
cannon, 1,500 small arms, 20,000 rounds
of artillery ammunition, 2,500,000
rounds for small arms and a quantity of
other material.

hero of Wagner's famous comic opera,
"Die Meistersinger von Nürnberg."

The shoemakers' guild and the men whose
craft is song are attending the celebra-
tion. There are processions and a festival
of music, wine drinking and rhyme-
making, all in honor of the old cobbler,
Hans Sachs, the shoemaker and song-
maker.

Must Pay for Bissell's Acts.

TRENTON, N. J., Nov. 5.—G. D. W.
Vroom, as referee, has filed a report in
which he decides that the First National
bank of this city must reimburse the
American Saw company of Trenton and
New York in the sum of \$18,784 for
money drawn from the bank by Isaac
F. Bissell while secretary of the saw
company. By the laws of the company
only allowed Bissell to endorse checks
and notes for deposit, but the bank
gave him money on the endorsed checks
whenever he asked for it. Bissell is
now under indictment for forgery in
connection with the transaction.

Maryland Horse Show Opens.

BALTIMORE, Nov. 5.—The entry list
for the first annual exhibition of the
Maryland Horse show association has
closed with 378 entries from horsemen

all over the country, and the show
opened to-day at Union park, and con-
tinues six days. Governor Brown has
sent invitations to governors of the dif-
ferent states to be present at the formal
opening this evening.

PRINCESS ALIX CONFIRMED.
She Swears Allegiance and Is Admitted to
the Greek Church.

LONDON, Nov. 5.—A dispatch from
Livadia to The Daily News says: The
Grand Duke Alexis, brother of the late
Czar Alexander and the governor and
mayor, welcomed the Princess and Prince
of Wales to Yalta.

The dispatch adds that Czar Nicholas
has conferred the decoration of the order
of St. Anne in diamonds on Prof. Ley-
den, the German physician who at-
tended the late czar. Prof. Leyden has
started on his return to Germany.

Princess Alix was received into the
Orthodox church on Friday. The cere-
mony took place in the chapel of the im-
perial palace. She received the title of
grand duchess in Russia. Blagovernaja
Velikaja Knagina. After the ceremony
of confession she received the Orthodox
sacrament. The ritual observed required
no denunciation of her former faith.
The priest merely asked the princess to
repeat the Creed, the Trinity, and then
pressed her to the bosom of the church.
She did so, and was then led by a
priest into the church and up to a
table on which were vessels containing
consecrated oil. In the meantime a
choir was singing Psalms. The princess
kneelt before the table. After the offer-
ing of prayers and singing of hymns,
the priest said: "Arise, my beloved,
arise in the fear of God."

The princess stood up and said: "I
vow to remain steadfast in the Orthodox
church to my last breath. I vow that I
acknowledge this faith and rejoice in
obeying its laws. As a sign of this sin-
cere vow, which comes from my heart,
I kiss the cross of the Saviour. Amen."

Then she knelt and the priest gave
absolution. After numerous hymns and
prayers, in which all the members of
the czar's family were named, the priest
anointed the princess with consecrated
oil on the temples, eyes, nose, lips, ears,
hands and feet. Afterward he touched

NEW YORK, Nov. 5.—Dr. Chas. H.
Parkhurst Sunday departed from his late
custom of refraining from political dis-
cussion in his Sunday sermons, and
launched into a denunciatory invec-
tive against Tammany hall. Madison
Square Presbyterian church was filled.
The doctor said that unless the condi-
tion of affairs in New York was speedily
changed, God would speedily wreak His
vengeance on this city, as He did on
Sodom and Gomorrah.

safe away. He added that the whole
Romanoff dynasty is doomed to a simi-
lar fate.

GUESTS' LUCKY ESCAPE

A Number Nearly Burned In a
Hartford Boardinghouse.

A \$50,000 INCENDIARY BLAZE

In the Singer Sewing Machine Building
at Louisville—Five Firemen Injured.
Nearly a Theater Panic—Incendiaries
Fire a Building in Omaha.

HARTFORD, Nov. 5.—The Neal, Goff
and Inglis building, 428 to 432 Main
street, has been burned with a total loss
of about \$150,000, partially covered by
insurance.

Many of the guests of O. H. Miner's
boarding house, at 432 Main street, had
narrow escapes. Several of the 25
boarders were aged persons, and it is
feared some did not escape. An aged
couple were seen calling for help at a
window, but soon disappeared. One
old man fell on the way down stairs on
the third floor and was not seen to rise.
Francis A. Crum seized his sleeping
child and rushed down the stairs, barely
in time, followed by his wife.

The cause of the fire is unknown.
Just before the fire started, Fred Gros-
beck, a clerk in the furnishing store, en-
tered the building and lighted the gas.
Neither he or the policeman, who had
just made his rounds, found any signs of
fire, but it is thought by some that he
dropped a burning match. Bursting of
the heavy glass windows of the store
gave rise to a theory of explosion of gas
meter or oil barrel.

FIVE FIREMEN INJURED.

A \$50,000 Incendiary Fire in Louisville—
A Theatre Panic Averted.

LOUISVILLE, Nov. 5.—Fire, supposed
to be of incendiary origin, in the build-
ing occupied by the Louisville branch of
the Singer Sewing Machine Manufac-
turing company, at 552 Fourth avenue, did
about \$50,000 worth of damage. Just
as the firemen had the fire under con-
trol the rear wall of the Singer building
fell and some of the firemen were
caught under it and badly hurt. Two
of them, Valentine Riehl and James
Mannix, may die.

The injured are: Valentine Riehl,
captain No. 2 hook and ladder company,
right leg broken, hurt about the head
and injured internally, may die; James
Mannix, pipeman No. 3 engine com-
pany, right hip fractured and injured
internally, may die; John Morton, cap-
tain No. 3 engine company, badly hurt
about the head and breast; Monk Clint,
pipeman No. 3 engine company, left leg
crushed and injured internally; Edward
Riehl, ladderman No. 2 truck company,
cut on top of head and left arm
mashed.

The Singer Sewing Machine company's
loss will be \$30,000 on which there is no
insurance. C. N. Lindsay, pictures,
frames and wall papers, 554 Fourth ave-
nue, was damaged \$10,000; the loss on
the building was about \$5,000. Other
smaller losses will aggregate \$2,000.

At the time of the fire there was a
large audience present at the Avenue
theater which adjoins the Singer build-
ing. The fire was discovered by the
people on the stage and the curtain was
dropped in the middle of the last act
and in less than 20 minutes the house
was emptied of its occupants and a panic
averted.

Bicycle No Use in War.

WASHINGTON, Nov. 5.—The bright
hopes that have been entertained by the
military men that the bicycle might be
an effective adjunct in war time have
been dashed by the exhaustive trials
made in Germany, France and Austria

of the trials made in Germany, which,
he says, corresponded to those obtained

NEW YORK CAMPAIGN.

The Party Leaders Claiming Success by
Large Majorities—Political News.

NEW YORK, Nov. 5.—All the party
leaders are claiming the success of their
respective parties by large majorities.
The Republicans are especially desirous
of fair weather tomorrow.

The Committee of Seventy has issued
an endorsement of the Strong-Goff
ticket, signed by a large number of
prominent men. They also gave out
letters to show the support of the Seven-
ty's ticket by German-Americans and
by the Retail Grocers' union. Another
document made public was an arrange-
ment of the Tammany management of
the department of charities and correc-
tion, the investigations into the methods
in the insane asylums under its care be-
ing especially referred to.

A number of clergymen in the city
Sunday preached sermons denouncing
municipal corruption and urging their
hearers to oppose Tammany hall at this
election, not on party, but on public and
moral grounds. Among them were the
Rev. Dr. Parkhurst, at the Madison
Square Presbyterian church, and the
Rev. Thomas Ducoy, at St. Leo's Roman
Catholic church.

The Rev. Father Sylvester Malone of
St. Peter's and St. Paul's Roman Catho-
lic church, Brooklyn, issued a statement
in the same vein, claiming among other
things that Tammany already stands de-
feated before the people.

At the Republican state headquarters
a dispatch from Albany has been re-
ceived announcing that the attorney
general has decided that, under the elec-

waiting booth more than 10 minutes,
instead of 40, as claimed by some; also
that any person wilfully obstructing or
delaying other voters by occupying a
booth a longer time than the law per-
mits is guilty of a criminal offense.

The Claims of Both Parties.

NEW YORK, Nov. 5.—The World says
that during the past week it has been in
communication with the chairman of
the Democratic and Republican county
committees throughout the state. It
prints a table giving a resume of the
claims made by both parties as to ex-
pected pluralities for Hill or Horton,
which indicates that, according to the
views taken by the chairman of the
various Democratic county committees,
David B. Hill will win by 21,828 plu-
rality, while the chairman of the Republi-
can county committees having charge of
their party's canvass claim that Levi P.
Morton is to be the next governor. They
figure that he will have 55,925 plurality.

TO REUNITE CHURCHES.

Cardinal Gibbons Says There's Strong Sen-
timent to Unite Among Christians.

BALTIMORE, Nov. 5.—Cardinal Gib-
bons preached at the cathedral Sunday
on Christian unity. He said: "Thank
God there is a yearning desire for the re-
union of Christianity among many noble
and earnest souls. This desire is particu-
larly manifest in the English-speaking
world. It is manifested in England and
in the United States. I myself have re-
ceived several letters from influential
Protestant ministers expressing the hope
of a reunion and inquiring as to the prob-
able basis of a reconciliation. Reunion is
the great desire of my heart. I have
longed and prayed for it during all the
years of my ministry.

"The conditions of reunion are easier
than are generally imagined. Of course
there can be no compromise on faith or
morals. The doctrine and moral code
that Christ has left us must remain un-
changeable. But the church can modify
her discipline to suit the circumstances
of the cause."

A New Bridge Wrecked.

WILLIAMSBURG, Pa., Nov. 5.—At

McBRYDE THEIR MAN.

Powderly's Friends Have Him Stated for Hayes' Place.

THE U. S. COURTS TO BE INVOKED

At the First Sign of Crooked Work at the New Orleans Convention - Eminent Counsel Engaged - A Committee of Fifty to Purify the Order.

PHILADELPHIA, Nov. 5.—As the date for holding the annual convention of the Knights of Labor draws near there is a great deal of quiet work being done by the old-time friends of the order. Mr. Powderly himself has not been idle, as during the past six months he has been in 15 different states, and, with others, has gathered evidence in support of the allegations of the intended schemes of the present administration to pack the general assembly, which meets in New Orleans on the 15th inst., with ineligible delegates.

It is said by a prominent Powderly supporter that eminent counsel has been retained to commence proceedings in the United States courts on the first appearance of "crooked" reports, and the books of the organization will be carefully scrutinized and perpetrators of frauds will find themselves in the strong grasp of the law. A committee of 50 all-time members who are not and never have been known as factionists, have raised a fund for the purpose of purifying the order, believing that principles are paramount to the past or present administrations, or any other that will be hereafter elected.

These energetic workers have prevailed upon the secretary of the United Mine Workers' union, Patrick McBryde, of Columbus, O., to run for the office of general secretary-treasurer. It is claimed that no man in the order has a brighter or cleaner record than Mr. McBryde, and the friends of the movement are very much elated that they have at last succeeded in getting a "celute" promise man to allow his name to be placed in nomination for the office. All the western delegates and many others from the east have consolidated on McBryde.

An Embargo on Diseased German Horses Talked Of.

WASHINGTON, Nov. 5.—The embargo which Germany has just placed against American cattle may have a sequel which the German authorities have not anticipated, viz., an investigation as to the glanders and the diseases known as horse syphilis, with which German horses brought to this country are affected.

Secretary Morton called attention in his last report to the lack of inspection of horses coming from abroad and suggested that it would be well to provide for quarantining horses. At that time there was such comity between this country and those of Europe in the shipment of live stock that the horses' inspection was not urged. Now, however, with Germany closing her ports against American cattle, the secretary's suggestions of protection against diseased horses becomes pertinent.

Word comes from Denver that John G. Quay and Frank H. Croxall are prospering in Denver. Their business has increased wonderfully, and they are making some of the insurance men in Colorado realize the importance of hustling. The gentlemen are competent and energetic, and deserve success in all its fullness.

Two girls came near indulging in a hairpulling match at the rink Saturday night. They had been skating, and when they met there was a war of words, one girl accusing the other of talking about her. Numerous choice names were called, but finally the two decided to settle their troubles elsewhere, and skated away.

That the return of the electric street lights was appreciated by East Liverpool people was evident Saturday night. One man remarked that "the change from a barbarous to a civilized condition of affairs was pleasing," and that "if the dark ages were anything like the last few nights he was glad he hadn't lived then."

The club recently organized under the title of the Ceramic club has discovered that there is another organization in the city with exactly the same name. They have accordingly changed their title. Hereafter the club in the Ikirt building will be known as the Ceramic City club, to prevent confusion. They will take final action on the name at a business meeting tonight.

The street railway company are making important changes on cars with regard to the positions of fare boxes. Instead of occupying a part of the space intended for the door, all will be fixed up in a space cut out alongside the windows on the right side, thus allowing a doorway of the former size and plenty large enough to admit passengers if the coaches are being run backward.

Thala, wife of John Gilgrist, Second street, died this morning after a protracted illness caused by consumption. Deceased was 36 years of age, and leaves three children. The remains will be taken tomorrow to Brilliant, and after services are held there interment will take place in the cemetery at New Alexander. Mrs. Gilgrist was a conscientious Christian, having been a member of the Christian church here for several years.

William Martin was here yesterday from Washington, Pa., where he is a successful business man. Twenty-five years ago the gentleman was a resident of this city and still remembers a great many of the people who lived here at that time although he has not been in the city during those years. He can see improvement so vast in the city that had he been dropped down here without knowing it was East Liverpool he never would have recognized the town.

DANGLER RADIATOR.

NO. 302.

This radiator, new in principle and exclusively our own, has the burner at the bottom of the center tube, opposite the small door in front, making a sure and convenient means of lighting. The direct heat passes up the center tube and down the outside tubes to the base, discharging through the ornamental grating in front of the base. This grating can be easily removed for dusting. The direct heat, being held in the tubes in its passage to the base, makes the radiated air very hot, and with the direct heat discharged near the floor, makes this principle of heating economical, convenient and perfect.

News From the River.

The river is stationary but a rise is expected tomorrow.

The Leader passed up with a tow of empties for Pittsburg.

Packets are expected to resume regular trips the latter part of this week.

The towboat, Cyclone, is still laid up at the foot of Market street here, but expects to get away soon.

The Ben Hur passed up last night and down this morning, leaving some straw, produce and passengers.

The towboat, Seven Sons, ran through herself near Pittsburg the other day, and is laid up at Elizabeth for repairs.

The Victor, a new towboat, passed up yesterday and a number of other boats with tows of empties followed during the night.

The steamer Olivette passed up Saturday with a tow of empty barges for the Hornet Coal company at Pittsburg. She was aground for several days, and it took hard work to get her off.

The towboat, J. A. Blackmore, sunk a coal boat at Grassy Flats in the first pool the other day, and as it broke in two and cannot be raised it will be a total loss. The coal will have to be dredged out and the loss will be considerable. The boat was owned by the McKinley Coal company.

Very Ill.

Mrs. John McVay is ill with rheumatism.

Mrs. Charles McGovern is lying at the home of a relative on Fourth street very ill with consumption.

R. P. Young, an aged resident of the Calcutta road, is confined to his home with illness.

The Lost Paradise.

Sylvester Maguire, representing the "Lost Paradise" was in the city this morning. The company will be at the Grand next Saturday evening, and great things are promised for the production. The strike scene in the second act is said to be one of the best stage pictures ever produced.

COLLARS AND CUFFS that are water-proof. Never wilt and not effected by moisture. Clean, neat and durable. When soiled simply wipe off with a wet cloth. The genuine are made by covering a linen collar or cuff on both sides with "celluloid" and as they are the only waterproof goods made with such an interlining, it follows that they are the only collars and cuffs that will stand the wear and give satisfaction. Every piece is stamped as follows:

If anything else is offered you it is an imitation. Refuse any but the genuine, and if your dealer does not have what you want send direct to us, enclosing amount and stating size and whether a stand-up or turned-down collar is wanted. Collars 25c. each. Cuffs 50c. pair.

The Mind Reading Boy.

The policeman had been standing on the corner for about ten minutes, and a foxey looking boy sitting on a nearby doorstep was watching him. The boy's curiosity overcame him at last, and he sidled along up to the officer.

"I say, Mr. Copper," he said at a safe distance, "what are you standin on this corner for?"

"That's my business," he replied curtly.

"Well, you seem to be 'tendin to it," ventured the boy.

"That's what I'm paid for."

"Alle samce," chirruped the lad, "I know what you're standin there for."

"I'll give you a nickel if you'll tell me," bantered the officer as he held out a coin to the kid.

"Throw it to me," said the boy, keeping his distance warily.

"Not much. You tell me what I'm standin here for, and I'll give it to you."

The boy came up close enough to reach the coin. "You're standin here for ten minutes," he said, with a grab at the money, and the officer chased him in vain. —Detroit Free Press.

Recording the Losses.

In primitive times, when men went into the fight, it is hardly supposable that anything like a roster was kept, no army bulletin printed, "Dead, Missing, Wounded." According to tradition, the method employed to record the losses in battle was simple. Before going into the fight every man took a stone and deposited it in a heap. After the battle the survivors took away each one a stone. Nothing was easier than to count those stones which were uncalled for. The remainder showed the loss of life. —New York Times.

That men are appreciating the value of the rest cure is shown in an assertion recently made by J. M. Barrie, the novelist, that a day in bed refreshed him as much as a few days spent at the seaside.

A Sheffield bootmaker displays this notice in his window: "Don't you wish you were in my shoes?"

The collector for the Ceramic Light company will call on patrons tomorrow. Customers will please make note and be in readiness for prompt payment. CERAMIC LIGHT CO.
